

25 Peptide Combos You CAN Inject In The Same Syringe

by Hunter Williams

NOT MEDICAL ADVICE!

Just my own experience and own fiction fantasy role play.

Problem

- People love to use multiple peptides together
- People hate injecting themselves
- People want to combine peptides into one syringe for fewer injections
- Unsure which peptides can be mixed

Rule of Thumb

Inject peptides in the same syringe that are working on synergistic pathways

The Buckets

Categories of Peptides

Growth Hormone Stimulants

Inflammation and Healing

Immune System Modulation

Melanocorticotropin Effects

GLP-1 Fat Loss

Non-GLP-1 Fat Loss

Cognitive and Neurological Enhancement

Mitochondrial Health

Sexual Function

Muscle Growth and Repair

Reproductive Health

Miscellaneous

Growth Hormone Stimulants

Growth Hormone Stimulants	- CJC-1295 & Ipamorelin Blend
	- CJC-1295 (no DAC) & Ipamorelin
	- Mod GRF 1-29 & Ipamorelin
	- GHRP-2 & GHRP-6
	- Tesamorelin & Ipamorelin Blend
	- Tesamorelin & CJC-1295 (Mod GRF 1-29) & Ipamorelin
	- Tesamorelin & CJC-1295 (no DAC)

Inflammation and Healing

Inflammation and Healing	- BPC-157 & TB-500
	- Thymosin Alpha-1 & Thymosin Beta-4
	- GHK-Cu & BPC-157
	- BPC-157 & SS-31

Immune System Modulation

Immune System Modulation	- Thymalin & Thymosin Alpha-1
	- Thymosin Alpha-1 & BPC-157
	- Thymosin Alpha-1 & SS-31

GLP-1 Fat Loss

GLP-1 Fat Loss	- Liraglutide (GLP-1) & Semaglutide (GLP-1)
	- Semaglutide (GLP-1) & Retatrutide (GLP-1)
	- Tirzepatide (GLP-1) & Semaglutide (GLP-1)
	- Tirzepatide (GLP-1) & Retatrutide (GLP-1)

Non-GLP-1 Fat Loss

Non-GLP-1 Fat Loss	- AOD 9604 & Fragment 176-191
	- MOTS-C & AOD 9604

Cognitive and Neurological Enhancement

Cognitive and Neurological Enhancement	- Semax & N-Acetyl Semax
	- Selank & N-Acetyl Selank
	- Selank & Epitalon

Mitochondrial Health

Mitochondrial Health	- MOTS-C & SS-31
----------------------	------------------

Sexual Function

Sexual Function	- PT-141 & Oxytocin
-----------------	---------------------
